All staff have a designated line manager or supervisor, who is responsible for supervising staff activities and performance along with learning and development (see also the ['Health and safety information and training'](#) section of this policy).

Vehicles

Hockliffe Lower School staff may be required conduct driving activities for work purposes. This will typically be in the form of:

- driving their own, personally owned vehicles, to conduct journeys in relation to the business of Hockliffe Lower School

Work-related driving can be defined as *“any work-related journey other than the normal commute to / from your normal place of work, regardless of vehicle type or ownership, payment terms and time at which the journey takes place”*.

As such, work-related driving in as defined by this policy includes all journeys:

- made for work purposes using personally-owned / leased vehicles (except for the employee's commute between home and their *normal* school work location).

When carrying out work-related driving, the vehicle becomes the workplace. As such Hockliffe Lower School has a duty to ensure that employees and others are protected from harm which may arise from the condition of their workplace or the activities that they carry out.

All staff, before driving any vehicle for work purposes, must first evidence:

- their competency to drive school or personally owned vehicles (through their driver's license);
- the roadworthiness of their own vehicle(s) used for work-related journeys; and
- their business level insurance cover for their personally owned vehicles(s) used for work-related journeys.

Aoife Greaves is responsible for ensuring that only authorised staff drive vehicles for work-related journeys.

Aoife Greaves (Headteacher) is responsible for checking that:

- members of staff have the appropriate full (not provisional) driving license (including a license which includes category D1 where the member of staff is to drive minibuses) and insurance required for work-related driving; and
- privately-owned / leased vehicles used for work-related driving:
 - have a current MOT certificate in place;
 - have paid any Vehicle Excise Duty ('road tax') required; and
 - are not subject to any outstanding safety recalls which may immediately affect roadworthiness of the vehicle.

All staff are responsible for providing the relevant information and documents to enable checks to be made. Between programmed checks, staff are also required to immediately

declare:

- any driving license changes (e.g. penalty points, restrictions placed upon them by DVLA); and / or
- any changes to the vehicles they drive on work-related journeys (e.g. newly acquired or disposed vehicles, unresolved MOT failures or advisories, unresolved safety recalls, untaxed vehicles, removal of business class motor insurance cover); and
- **All staff** are also required to ensure that they consider their fitness to drive (or cycle) and that they conduct pre-use checks and on the vehicles they drive, in line with the requirements of the Highway Code.

Volunteers are managed in line with school policies and procedures for paid staff.

Waste management

Appropriate provision is made for the disposal of waste types generated by Hockliffe Lower School activities and all staff are required to ensure that waste is disposed of in the appropriate way

Items awaiting disposal must at all times be stored appropriately and never in a way which may restrict or obstruct free movement, access, egress or cause a fire hazard.

Aoife Greaves (Headteacher) is responsible for the management of waste contracts and ensuring that:

- general waste and recycling are collected on a weekly/fortnightly basis.

Work at height

Falls from height are a common cause of injuries at work, often where the work at height is of short duration and from 'low' heights of less than 2 meters. Common causes of accidents when working at height include:

- overreaching or over balancing;
- climbing with loads;
- using inappropriate equipment to access areas / carry out work at height (e.g. desks, chairs, etc.);
- not ensuring that work at height access equipment is securely fixed in place;
- placing access equipment on unsuitable surfaces;
- falls from roofs with unprotected edges; and
- falls through fragile materials (e.g. skylights).

Hockliffe Lower School is committed to carrying out its duties under the Work at Height Regulations in order to ensure, so far as is reasonably practicable, the safety of staff, pupils and visitors carrying out or (being in the vicinity of those carrying out) work at height activities.

The principle applied by Hockliffe Lower School is that work at height must always be avoided

unless it is not reasonably practicable to do otherwise; if work from height cannot be avoided, the risks associated with it must be assessed before proceeding.

School roofs, even if able to support human weight, are classed as fragile if unguarded skylights are present.

The risks from unauthorised access to places of height have been assessed and reasonably practicable measures taken to mitigate those risks.

Risks from contractor work at height activities are assessed and managed in line with the [‘Contractors’](#) section of this policy.

Aoife Greaves is responsible for:

- ensuring that appropriate systems are in place to safeguard all those who might be harmed by work at height;
- ensuring that managers and staff are made aware of the arrangements and requirements for working at height;
- ensuring that all those members of staff involved in undertaking higher risk work at height **and / or** planning, organising or supervising work at height **and / or** inspecting work at height access equipment have received appropriate formal training; and
- authorising higher risk work at height activities before they may proceed.

Philip Stanbridge, Site Agent, as the school’s lead competent person trained in ladder use / inspection and working from height, is responsible for ensuring that:

- all work at height is properly planned, organised and supervised;
- the use of access equipment is controlled by the school’s competent persons for working at height;
- all those involved in work at height are competent to do so;
- the risks from working at height are assessed and appropriate equipment is selected and purchased (this includes access equipment, equipment safety devices and personal protective equipment);
- all access equipment is formally visually inspected on a quarterly basis;
- all access equipment is, as required, repaired and subject to periodic maintenance and inspection in line with the manufacturer’s guidance; and
- the risks from fragile surfaces or unauthorised access to places at height is properly controlled.
- ensuring the appropriate storage of access equipment.

All staff are responsible for:

- undertaking work at height only where they are competent to complete the planned task **and** have received the appropriate level of information, instruction and training to do so;
- planning and carrying out any work at height in line with the requirements of this policy and associated risk assessment(s) and method statement(s);
- ensuring that they carry out pre-use visual safety checks on equipment to be used and take out of use any equipment found to be defective, reporting it to **Philip Stanbridge**,

Site Agent.; and

- ensuring that kick-stools, where stored in their classroom or area (or otherwise under their control), are appropriately stored so that they cannot be accessed by pupils and unauthorised persons.

Work equipment

Office and Finance Managers are responsible for:

- Liaising with the CBC Assets Team who co-ordinates statutory testing and planned, preventative maintenance requirements for plant and equipment through CBC's Property Buy Back scheme
- maintaining the school's work equipment inventory (which will include all equipment used in the curriculum).

Plant and equipment in scope for planned, preventative maintenance includes electrical systems (including fixed wiring and portable appliances); water hygiene (Legionella); fire preventative and protective systems; security systems; and general site plant and equipment including play equipment. The CBC Assets Team monitors compliance for plant and equipment associated with property health and safety and requires all Community and Voluntary Controlled schools not using the Property Buy Back Scheme to submit confirmation of compliance on at least an annual basis.

All staff must ensure that they visually check work equipment for defects before use and that they only use work equipment that they are authorised and competent to use, in line with risk assessments and agreed procedures.
